Mountain Weather Forecast

Lake District National Park

Forecast valid from 06:00 on Friday 22 Nov 2024 until 23:59 on Saturday 23 Nov 2024

Forecast Issued on Friday 22 Nov 2024 at 03:33

Confidence: High for cold northwesterly flow being replaced by a mild and wet westerly from Saturday, but lowering for the detail of transition also for the further change to showers then gradually colder conditions through the week to come.

Headline for Friday 22 Nov 2024: Cold. Weak sunshine between isolated showers. Severe wind chill despite the winds easing relatively light.

Forecast for Friday 22 Nov 2024

Weather: A largely dry, cold and bright morning with good spells of weak sunshine, but a few light showers will crop up, chiefly over western areas of the park, especially through the afternoon and evening.

Chance of cloud-free hill tops above 800m: 90% at dawn, becoming 60% by early evening.

Low cloud and visibility: Excellent visibility becoming poor in snow, very poor within cloud with bases infrequently lowering 600m, by day chiefly in the west as showers push through.
